

Save your tooth

Most of your permanent teeth may be saved if you know what to do after a blow to the mouth

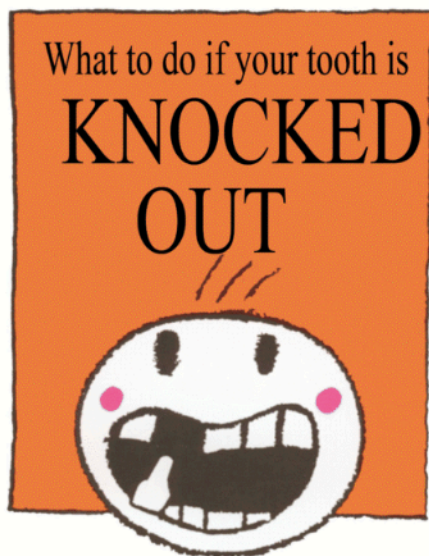

Find the piece of the tooth

The piece can be glued on

For this to be possible, seek attention immediately from a dentist

Find the tooth

Hold it by the crown

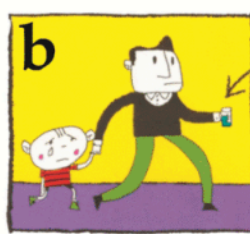

(plug the sink)
Rinse in cold tap water

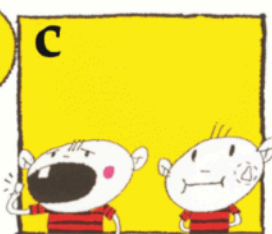

4
FOLLOW ONE OF THESE ALTERNATIVES

Put the tooth back in its place

Place the tooth in a cup of milk or saline

When milk is not available, place the tooth in the mouth between the cheeks and gums

Seek immediate specialized dental treatment, within a two hour time period

Children's Dental
Traumatology Service
